### **Professional Specialties and Interests**

This year, 2010 will be my twentieth year as a practicing psychotherapist. I have provided assessments, crisis intervention, and psychotherapy to individuals, couples, families, and groups. I most frequently assess and treat conditions including: Addiction Disorders, Adjustment Disorders, Anxiety Disorders, Mood Disorders, and Couple's Counseling. As I have matured in my profession, I have developed a particular fondness for treating Adults and Couples. The majority of my post-graduate career has been in Employee Assistance Programs, like HelpNet here in Battle Creek. Over the last two years I have been applying the principles of Evidence Based Therapy (Client-Directed Outcome-Informed Therapy). This measures whether or not I am helping the client, and whether or not the client and I are a good clinical fit.
